Is Cooper Energy Limited (Coe) approaching a major achievement?

Cooper Energy Limited (ASX:COE) is possibly approaching a major achievement in its business, so we would like to shine some light on the company. Cooper Energy Limited, an upstream gas and oil exploration and production company, engages in securing, finding, developing, producing, and selling of hydrocarbons to south-east Australia.

Does Cooper Energy have institutional investors?

We would expect most companies to have some institutions on the register, especially if they are growing. We can see that Cooper Energy does have institutional investors; and they hold a good portion of the company's stock. This implies the analysts working for those institutions have looked at the stock and they like it.

Is Cooper energy nearing breakeven?

According to the 10 industry analysts covering Cooper Energy, the consensus is that breakeven is near. They anticipate the company to incur a final loss in 2022, before generating positive profits of AU\$6.1m in 2023. The company is therefore projected to breakeven around 12 months from now or less.
