Who is NIBE Energy Systems?

NIBE Energy Systems is a market leader for heat pumps in Europe and one of Europe's major manufacturers of water heaters and other energy-efficient products for heating and cooling.

How does Nibe contribute to global sustainability?

NIBE and its products contribute in a natural way to international ambitions to stop climate change and achieve global sustainability. We see it as our responsibility to focus on creating a product portfolio of sustainable energy solutions that supports the transition to a fossil-free society with reduced energy consumption.

Are Nibe water heaters energy efficient?

NIBE offers households peace of mind with its reliable, energy-efficient water heaters. Washing machines and tumble dryers, which make life easier for many of us, also need to be energy efficient. They contain several components made by NIBE. Energy conservation and thermal comfort
