

Statnett is the system operator of the Norwegian power system, owning and operating the transmission grid and maintaining the balance between consumption and production, providing you with a reliable power supply at all ...

GWL Group - Complete energy solutions. Since 2008, we have become Europe's largest distributor of LFP cells. In 2021, we also created our own ELERIX battery cell brand and a division dedicated to the development and implementation of complete domestic and industrial energy storage systems under the AMVOLT brand.

Norway has an open electric market, integrated with the other Nordic countries over the Synchronous grid of Northern Europe. Export and import is routine over the direct power links to Sweden, Denmark, and the Netherlands. The market ...

Norwegian municipalities and counties have large investments in the power sector. Together with central authorities, they own about 80% of Norway's electricity production capacity. About 35% of the production capacity ...

European battery storage manufacturer and distributor | GWL Group Amvolt is a European manufacturer of modular battery storages from 11 kWh Battery Packs to 1 MWh Containers (BESS). We supply our storages to customers and partners internationally as final products or as production blueprints for localized assembly.

A well-developed electricity grid makes it possible to transmit power from the hydropower plants in the southwest and north to consumers in other parts of Norway and abroad. The grid must be able to cope with both short- and long-term variability in production and consumption in order to ensure that electricity supplies are maintained.

Norwegian municipalities and counties have large investments in the power sector. Together with central authorities, they own about 80% of Norway's electricity production capacity. About 35% of the production capacity is owned by the state through Statkraft SF, which answers to the Ministry of Trade, Industry and Fisheries.
