Can you collect solar energy in Norway?

For example, the collection of solar energy was once regarded as gratuitous - especially in parts of the country that had a surplus of energy. Most homes in Norway are now equipped with smart meters allowing you to harvest solar energy, store it, and even sell it back to energy companies.

Who is solar technologies Scandinavia?

Solar Technologies Scandinavia is one of Norway's leading suppliers in solar panels and battery storage. The company was founded by key personnel with extensive experience from the construction industry and as technical suppliers. We offer training at all levels of competence in assembly, engineering and all applicable regulations.

Does Norway have solar power?

Although Norway is far north, it is quite possible to produce solar energy here. Ås, a small town south of Oslo, receives 1000 kilowatt-hours (kWh) per square meter annually. This is comparable to many parts of Germany, where solar power has boomed over the last 10 years.

How can I design my own Solar System?

Look up the address for the installation and design your own solar system in our online drawing program. Receive a quote and order the solar system you have designed yourself, from a local company. We have a dealer network throughout Norway that installs solar systems where you live.

How do I install a solar system?

Select the desired building on which you want to have a solar system installed. Get a proposal for a suitable solar cell system based on the building's dimensions. Choose the roof type and draw in pipes, ventilation, snow traps and other obstacles on your roof. See your solar system in 3D.
