

Olam energy Yemen

Who is Olam energy?

OLAM ENERGY S.A. DE C.V., is a company dedicated to supporting services for petroleum industry, committed to high quality standards and innovation in its products and services, providing adequate attention to stakeholders, understanding their needs and expectations.

How does Olam energy contribute to oil and gas production?

Three wells are using our nitrogen, helping them to contribute over 12Mb/d to the total national production. Olam Energy also provides nitrogen injection services and high-pressure pumping for stimulations, cleaning, acidification and cementation. Q: What is the main added value you can bring to oil and gas players?

Is solar power the main source of energy for Yemeni households?

According to the EADP, which focuses on access to clean and affordable energy, solar power went from being a niche product, used in just a few households in 2012, to the main source of energy for Yemeni households.

Why are people moving to solar power in Yemen?

The migration to solar power is part of what researchers say is an energy revolution in the country of 28 million, where the electric grid has been decimated by fighting. More than 50 percent of Yemeni households rely on the sun as their main source of energy, and solar arrays power everything from shops to schools to hospitals.

Why is Yemen a good place for solar energy?

Yemen has one of the highest levels of solar radiation in the world, increased solar irradiation availability throughout the year. Yemen has a long coastline and high altitudes of 3677 m above sea level, making it an ideal location for wind energy generation, with an estimated 4.1 h of full-load wind per day.

How can Olam help reduce environmental impacts?

We are active in a number of sector-wide initiatives and are collaborating with customers to help them mitigate their environmental impacts. Olam and sector programmes to build smallholder farmer resilience through: On a tropical mountainside in Mexico, farmers are planting new coffee saplings and forest trees.
