What is a bat-safe LiPo battery charging box?

The BAT-SAFE LiPo battery charging box is basically like an Ammo box with flame filter. This is more of an overview than review because I am not going to deliberately start a LiPo fire to test it.

Is bat-safe LiPo battery charger good for FPV drones?

The Bat-Safe LiPo Battery Charging box I bought is the medium size, which is great for regular FPV drone use. Find it here: Each box comes with a set of instructions and a battery charger holder. Here's a list of features described by the manufacturer:

What is a bat safe box?

The BAT-SAFE is a double-walled insulated steel box with a flame arrestor. Any battery within the specifications will be no fire hazard if charged or stored inside the BAT-SAFE. In case of an accident, the smoke and soot are also filtered by the flame arrestor. BAT-SAFE did already save homeowners from losing their property.

Should I get a bat-safe or a lipo bag?

So whether you choose the Bat-Safe, an ammo box, or a LiPo bag, the golden rule is to always prioritize safety. If you decide to get one, you can find it here: Secure your LiPo batteries with the Bat-Safe LiPo Box. Explore our review for its features, usage, and effectiveness in fire prevention and safety.

How many LiPo batteries can a bat-safe XXL hold?

It has enough room for 4 to 6 of your 6S 1100mAh - 1300mAh LiPo batteries. Or 2 of the huge 6S 10000mAh ones. Bat-Safe also offers other sizes: Mini, XL and XXL. The XXL is a beast, perfect for e-bike batteries and those times when you need to charge multiple large Lipos. Mini measurements: XL size: XXL dimensions:

Excellent safe charging box. Nov 27, 2021. Excellent box, I use it for 4x 3S 4200mAh Zippy LiFePo4 batteries. Awesome on a Hota F6 charger, just drive 2 sets of 2 batteries, put them all in the box and charge overnight. I mounted the Hota F6 with the included bracket for an all in 1 charging station. Only two downsides I could find find:
