

Spain and the Netherlands have launched subsidy schemes to support domestic manufacturing of clean energy technologies, including batteries and solar PV modules. The moves come at a time when both sectors in ...

Solar PV power generation in Vietnam could about to be maximised through the integration of battery energy storage systems (BESS), with consultancy AqualisBraemar LOC Group (ABL Group) hired to ...

The EUR100 million (US\$106 million) allocation is part of a EUR416 million package for PV co-located battery energy storage system (BESS) technology that was initially to total EUR41.6 million a year, starting in 2025, for ten years. The 2025 programme is set to open on 1 January 2025, and more details will be released to the House later this year.

The measure will provide feed-in tariffs for installs up to 500kW. Image: Tenezie. The European Commission (EC) has given the green light to a French aid scheme that is expected to support the ...

BNZ is aiming for 1.7GW of PV in southern Europe. Image: BNZ. Independent power producer BNZ has closed a financing deal worth EUR680 million (US\$741million) to fund its ongoing solar portfolio ...

A particular floating PV configuration from developer Xfloat. Image: Xfloat. SolarPower Europe - the representative trade body for the European solar industry - has published its first Best ...

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.

The six winners will add 623MW of solar PV capacity and 365MW/600MWh of battery energy storage systems (BESS), with the batteries helping to add dispatch ability to the output of the four solar ...

The solar PV project, situated in the Benban area, Aswan Governorate--a region already well known for its solar PV prowess via the 1.8GW Benban project--will be accompanied by a 600MWh battery ...

The Netherlands opened a consultation until 3 March 2024 to collect information for the subsidy. Image: Meyer Burger. The Netherlands has launched a new subsidy aimed at supporting domestic ...

DAS Solar has announced that its N-type modules have received French carbon footprint ECS certification, a requirement of the French Energy Regulatory Commission (CRE) for all photovoltaic ...

Collectively, the projects offer 2.65GW of solar power and the potential for up to 1.5GW of battery storage

capacity. Currently in various stages of development, the projects are expected to become operational progressively through to 2030.

In 2006, the French Southern Territories Nature Reserve was created around the Crozet archipelago and the Kerguelen, Saint-Paul and Amsterdam islands. This reserve, which by 2022 will cover an area of 1.6 million km², is one of the largest marine protected areas in the world and has been a UNESCO World Heritage Site since 2019. Added to this is ...

The cost of solar energy paired with battery storage on France's island territories has fallen yet again, as the European country awarded contracts to winning bidders in its latest tender process. Results have been announced ...

PowiDian has been selected by the Ministry of Armed Forces to equip Glorieuse Island with a solar power plant combined with a hybrid battery and hydrogen storage. Glorieuse Island, located in the scattered islands ...

The company said last week that it is developing a project which would combine anything between 2,500MW and 3,500MW of solar PV generation with battery storage of 4,000MWh to 4,500MWh capacity. Calling it "a model of dependable renewable energy," the project would be built through companies controlled by Prime Infra, together with Solar ...
