

Photovoltaic inverter market value

What is the global PV inverter market size?

The global PV inverter market size was estimated at USD 13.09 billion in 2023 and is expected to expand at a compound annual growth rate (CAGR) of 18.3% from 2024 to 2030.

Why is the PV inverter market growing?

Increased global PV demand: The increased global demand for photovoltaic (PV) systems presents a massive opportunity for the PV inverter market to grow substantially in the coming years.

What is the market share of solar PV inverters in 2021?

The utility segment of the solar PV inverters accounted for the largest market share in 2021 and is expected to reach USD 7,716 million by 2030 at a CAGR of 5.95%. Utility-scale solar projects require reliable, robust, and scalable infrastructure. The most widely used PV Inverter in the utility sector is the central and string inverter.

How will the North America solar PV inverter market grow?

North America solar PV inverter market is also expected to grow at a fast pace during the forecast period as the United States is a significant market for various types of PV inverters. The region's growth is further driven by favourable government incentives, increasing awareness of clean energy, and declining solar panel costs.

Which region has the largest solar PV inverter market share?

Asia Pacific is expected to account for the largest solar PV inverter market share, driven by the growing demand for renewable energy and the need for energy independence. The region is home to many developing countries, including China and India, where there is considerable growth in solar photovoltaic (PV) installations.

What is the value of PV inverter market in 2031?

SUNGROW, DARFON ELECTRONICS CORP, Schneider Electric, Enphase Energy, and Siemens [223 Pages Report] PV Inverter Market is expected to surpass the value of US\$37.6 Bn by 2031, expanding at a CAGR of 15.0%.

The PV Inverters Market size is anticipated to reach USD 36.22 BN by 2030 with a CAGR of 14.7%, this market report provides the growth, share, key players, trends, and market forecast ...

PVTIME - Renewable energy capacity additions reached a significant milestone in 2023, with an increase of almost 50% to nearly 510GW, mainly contributed by solar PV manufacturers around the world.. On June 11 ...

The PV Inverter Market Size, Share, & Trends Analysis Report by. Product Type: String Inverter, Central Inverter, Micro Inverter, and Other Inverter Phase Type: Three Phase and Single ...

Market Size & Trends. The U.S. residential solar PV market size was estimated at USD 7.45 billion in 2023 and is expected to grow at a compound annual growth rate (CAGR) of 14.4% ...

The Europe solar PV market size crossed USD 37.27 billion in 2023 and is estimated to expand at 7.1% CAGR between 2024 and 2032, driven by growing focus on green energy and net zero ...

The market developments in the top countries are largely due to economies of scale, emerging inverter technologies, and policy-based government and institutional industry." Between 2017 and 2022, the global ...

The report covers the top 10 solar PV power markets in APeC with forecasts from 2022-2031. It examines the key drivers and barriers for solar PV development in each market, including a breakdown of different solar PV ...

The global solar PV inverter market reached a value of almost USD 8.45 billion in the year 2023. The market is further expected to grow at a CAGR of 5.0% between 2024 and 2032 and to reach a value of almost USD 13.13 billion by ...

Market Outlook 2031. The global PV inverter market size was valued at US\$ 10.7 Bn in 2022. It is estimated to expand at a CAGR of 15.0% from 2023 to 2031 and reach US\$ 37.6 Bn by the end of 2031. Analysts' Viewpoint.

The PV inverter market size is valued at US\$ 15.28 billion by 2024, from US\$ 41.87 billion in 2031, at a CAGR of 15.5% during the forecast period. PV inverters are critical components in ...

The global solar PV inverter market size reached US\$ 8.3 Billion in 2023. Looking forward, IMARC Group expects the market to reach US\$ 12.3 Billion by 2032, exhibiting a ...
