

Photovoltaic panel regulations

Are there building regulations for solar panels?

There are building regulations for solar panels, as there are for most home improvements. These government regulations are frequently updated to ensure that any alterations made to properties don't threaten the safety or health of people who live or work in them.

Do you need planning permission to install solar panels on your roof?

An increasing number of people are investing in solar energy. More and more homes are having solar panels, or solar tiles, installed on their roofs. Of course, with such installations, the topic of planning permission and building regulations often comes to the surface.

When did solar panels become a building regulation?

In 2005, household electrical work was absorbed into the UK government's official Building Regulations. A year later, the Climate Change and Sustainable Energy Act 2006 brought microgeneration systems like solar panels under the umbrella of the Building Regulations. Should you receive a building regulations certificate for your solar panels?

Do solar panels need planning permission?

It is true that the majority of solar PV installations will be classed as a PD. However, there are instances where you will need to seek planning permission from your local authority. This is the case if your solar panels: If you live in Scotland, there are a few additional rules that require planning permission.

When should solar PV equipment be removed from a building?

(a) the solar PV equipment or solar thermal equipment must, so far as practicable, be sited so as to minimise its effect on the external appearance of the building and the amenity of the area; and (b) the solar PV equipment or solar thermal equipment is removed as soon as reasonably practicable when no longer needed.

Do I need a building regulations certificate for my solar panel system?

You should receive a building regulations certificate, known as a completion certificate, for your solar panel system. This certificate will assure you and any future owners that the work met all building regulations, which will make it much easier to sell your property at any point.
