

What is GB-Sol's roof integrated solar PV system?

GB-Sol's roof integrated solar PV system enables full-sized, high efficiency solar panels to be discreetly fitted within any type of conventional roofing material. Our Projects team manage complex solar PV projects such as large commercial buildings, industrial environments and social housing retrofit programmes.

Can a PV system be installed on a flat roof?

Figure 24 shows a typical PV installation on a flat roof. The only sources of rain leakage with these systems are where there are penetrations through the roof waterproofing layer. It is always good practice to avoid such penetrations because they are generally hard to seal and inspection is often difficult.

How much does an in-roof solar panel weigh?

A combination of strength and simplicity - each panel weighs only 8.95kg. In-roof solar can be installed or removed in under one minute per panel. Interlocking design provides superior strength and wind rating. Thanks to its interlocking design the in-roof solar solution provides an easy and fast installation.

What is a PV slate roof?

Upgrade your roof with PV Slate and experience the seamless blend of traditional slate aesthetics and powerful solar energy- all backed by a 25-year warranty. The Infinity solar roof is an almost seamless glass and aluminium roof covering from ridge to gutter and side to side, with huge solar power output and a 25 year warranty.

What is a GB-Sol Infinity Solar Roof?

The Infinity solar roof is an almost seamless glass and aluminium roof covering from ridge to gutter and side to side, with huge solar power output and a 25 year warranty. GB-Sol's roof integrated solar PV system enables full-sized, high efficiency solar panels to be discreetly fitted within any type of conventional roofing material.

How do in-roof solar panels work?

Simple panel to panel connection guides the installer in to the correct position by simply pushing the panels together. In-roof solar panels are lightweight and easy to carry. A combination of strength and simplicity - each panel weighs only 8.95kg. In-roof solar can be installed or removed in under one minute per panel.
