Astronergy's solar panels are among the most cost-effective on the market. In this review, we'll cover pros & cons, pricing and specs of Astronergy's 345W panel, as well as pick out some alternatives for those who prefer higher efficiency, locally made options. Astronergy's 345W solar panels offer the best value on the market right now.

Are Astronergy 345W solar panels a good choice?

Astronergy's 345W solar panels offer the best value on the market right now. If maximizing your budget is your primary goal, Astronergy's pricing is among the most competitive of all Tier 1 solar panel manufacturers. In this article, we'll review the Astronergy 345W solar panel and go over its ideal use case.

Which solar panels do Astronergy sell?

The below 4 panels are the ones that Astronergy are currently focused on selling in the Australian residential and commercial solar markets: The ASTRO 5s (CHSM54M-HC) series has a watt rating of 410 to 415W utilising half-cut monocrystalline PERC solar cells.

Who are astroenergy solar panels?

Astroenergy are a lower cost panel. Their parent company name is CHINT Solar, and they have an office in Adelaide, Australia. They have Bloomberg Tier 1 status, but as mentioned many times elsewhere, this reflects the company's financial position, not the quality of the solar panels they produce. They are not on our Best Solar Panels list.

Does Astronergy have a warranty?

In 2019 Astronergy increased their product warranty to 12-year and 25-year performance warranty for most of their solar panels which remains the case for the ASTRO 5 semi solar panel which is directed at the commercial market.

Who is Astronergy solar?
