

# Power pack for home use Sweden

What does a travel plug adapter look like in Sweden?

When you are going on a trip to Sweden, be sure to pack the appropriate travel plug adapter that fits the local sockets. But what do those electrical outlets look like? In Sweden, types C and F are the official standards. Like almost all Continental European countries, Sweden has standardized on the German plug and socket system.

What type of plug is used in Sweden?

In Sweden, types C and F are the official standards. Like almost all Continental European countries, Sweden has standardized on the German plug and socket system. What is the mains voltage in Sweden? Just like the rest of Europe, the voltage in Sweden is 230 volts and the frequency is 50 Hz. Sweden has standardized on type F sockets and plugs.

Are type C plug sockets allowed in Sweden?

Typically, type C plug sockets are not allowed to be installed in Sweden: these outlets are not earthed and are therefore considered dangerous. Only type F power points are permitted because they are grounded and therefore significantly safer. The only (and rare) exception to this rule is that an old type C outlet should be replaced by a new one.

What equipment is included in a hydraulic power pack?

Equipped with pump, motor, valve block, solenoid valves and other equipment according to the customer's needs. Hydraulic power pack with 10 litre oil reservoir. Equipped with pump, motor, valve block, solenoid valves and other equipment according to the customer's needs. Hydraulic power pack with 20 litre oil reservoir.
