

Rolls-Royce has received an order from the Latvian transmission system operator Augstsprieguma tīkls (AST) to supply an mtu large-scale battery storage system to secure the Latvian power grid. In 2025, Latvia, together with the other Baltic states, will synchronise its energy supply system with the continental European power grid.

Energolukss is the first specialized backup and guaranteed power supply company in Latvia with main focus on delivery, installation, maintenance, repair and rental of generators and UPS equipment. Since 2018, e-mobility and solar energy solutions have also been delivered.

On February 21, the newly opened Liepāja Energy Efficiency Center hosted a free seminar about Power Supply Solutions, where lecturers from SIA "Energolukss" and SIA "Schneider Electric" talked about power supply and its needs, electrical equipment and engines. A demonstration of products developed by those two companies was held. Jānis Prīmnies, Head
