

# Safe energy solutions Angola

Who will build a 50 MW solar power plant in Angola?

The Italian company ENI signed a concession agreement with the government for the construction of a 50 MW solar plant in Namibe province, in southwestern Angola. The solar power plant will be constructed by Solenova, a joint venture between ENI and Angolan state-owned oil producer Sonangol.

Why should you partner with original equipment manufacturers (OEMs) in Angola?

By partnering with Original Equipment Manufacturers (OEMs) and adhering to local and international regulations, especially in Angola, we aim for excellence and sustainability in the oil and gas industry. Join us in shaping a more efficient future.

How does Azule energy operate in Angola?

Azule Energy operates in Angola under different Petroleum agreements which set out its contractual relationship with the Angolan Government (represented by the National Concessionaire). The referred agreements provide the framework for carrying out the Petroleum operations. [Click here](#) for comprehensive details of the Azule Energy entities.

What is Angola's energy mix?

Angola's current installed capacity is estimated at 5.7 GW but only 70 percent is in use. The country's current energy mix consists of 61.8 percent hydropower, 37.6 percent other fossil fuels and 0.6 percent hybrid (solar/fossil fuel).

How much does Angola spend on electricity?

The portion of the Angolan government budget dedicated to the electricity production, transmission and distribution sectors increased to US\$817.2 million in 2023 from US\$490 million in 2022. Angola's national budget for electricity assessment allocated is around US\$249.4 million.

Does Angola have a power pool?

Angola is currently a non-operating member of the Southern African Power Pool, but plans exist to connect to the pool through Namibia (Baynes Dam). Namibia and Angola are set for a joint construction of the Baynes Dam hydroelectric plant with an installed capacity of 600 MW.
