What is the energy mix in St Lucia?

Presently St Lucia energy mix is comprised of just 1% renewable energy on the public grid. Its electrical demand peaks at 61MW and its electricity prices are high relative to the rest of the Caribbean. "SUNTERRA has some really exciting propositions to take solar power to a whole new level."

Can I use my own electricity in Saint Lucia?

The majority of electricity outlets in Saint Lucia take three-pin square plugs, which is the same as those used in the United Kingdom. Therefore, visitors from the UK will not have any problems using their own appliances. However, visitors from other parts of Europe or the United States will need to bring their own transformers or adapters.
