Renewable energy - Worldwide projects 22 metallic constructions We've been building Producing wind towers for four countries Shipbuilding and shiprepair at cruise speed 34 renewables Windart - The world's highest contemporary art project 38 enterprising Martifer honored in the "engineering solutions" category summary

Martifer Metallic Constructions is a globally recognised player in the sector. The company is focused on two major geographic areas: Europe and the Middle East, and Africa, and has industrial units that allow it, from those areas, to build the most complex projects in diversified places such as Jeddah in Saudi Arabia, Djelfa in Algeria, or Lyon in France.

Nonetheless, EIU analysts anticipate a rapid expansion of renewable energy projects in Saudi Arabia during the coming decade. Daher argues that "installed renewable capacity (solar and wind combined) will surge to about 27GW in 2030, from around 1.6GW in 2023, and from only 0.1GW in 2020, pushing up renewable generation from just 0.7% of the ...
