

# Seychelles sirius x energy

Where can I find information about energy in Seychelles?

Find relevant data on energy production, total primary energy supply, electricity consumption and CO2 emissions for Seychelles on IndexMundi Homepage. Find relevant information for Seychelles on energy access (access to electricity, access to clean cooking, renewable energy and energy efficiency) on the Tracking SDG7 homepage.

How is electricity produced in Seychelles?

Electricity for the island nation of Seychelles is primarily produced by diesel generators which must import their fuel (69 MW on Mahe and 12 MW on Praslin). Energy policy calls for 15% renewables by 2030. In June 2013, the first wind farm in Seychelles was officially inaugurated.

Is biomass a source of electricity in Seychelles?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Seychelles: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

What is Seychelles' energy policy?

Energy policy calls for 15% renewables by 2030. In June 2013, the first wind farm in Seychelles was officially inaugurated. This 6 MW power plant can produce up to 2% of the Seychelles' power and is located on Mahé Island. It is expected that the wind farm will replace 1.6 million litres of diesel fuel annually.

Who funded the Seychelles wind farm project?

The wind farm project was fully funded by the Abu Dhabi government through a \$28 Million grant to the Seychelles. The Abu Dhabi government appointed Masdar as project manager.

Where can I find relevant documents and data sets for Seychelles?

Find relevant documents and data sets for Seychelles on the Power for all PEAK homepage.
