

At present, Voltalia has 29 MW of capacity in operation and under construction in French Guiana. This total includes biomass, hydropower, battery storage and solar photovoltaic (PV) projects. In October last year, the French firm and its partner Banque des Territoires, part of France's Groupe Caisse des Depots brought online a 2.6 MW/2.9 MWh ...

Voltalia is the sole winner of the fifth period of the CRE 4 tender for non-interconnected areas for ground-based solar power plants in French Guiana. The project, called "Parc Sable Blanc", ...

French renewable power producer Voltalia SA (EPA:VL TSA) has started the construction works on a 5-MW solar farm combined with a 10.6-MWh lithium-ion battery storage unit in French Guiana. Named Sable Blanc, ...

French firm Voltalia has started building the largest energy storage system in French Guiana made up of two separate lithium-ion batteries. The Mana Stockage facility with 10MW / 11.3MWh of storage is located close ...

Voltalia is the sole winner of the fifth period of the CRE 4 tender for non-interconnected areas for ground-based solar power plants in French Guiana. The project, called "Parc Sable Blanc", combines a five-megawatt photovoltaic power plant with a lithium-ion battery storage facility with a capacity of 5 megawatts and of 9.3 megawatt-hours.

The brand new 10MW/11.3MWh battery energy storage system (BESS) is shipped today from Entech smart energies facilities to its sunny French Guiana final destination. Entech smart energies is extremely proud to have been selected by Voltalia to deliver what is known today as the French largest battery storage system.

French renewable energy company Voltalia has completed the expansion of a renewable energy plant in French Guiana, adding a battery energy storage system (BESS) of 10.6MWh. The Paris-listed company announced ...

French RE developer Voltalia has recently announced the commissioning of its Sable Blanc power plant combining solar photovoltaic production and battery energy storage in French Guiana. Developed entirely ...

French firm Voltalia has started building the largest energy storage system in French Guiana made up of two separate lithium-ion batteries. The Mana Stockage facility with 10MW / 11.3MWh of storage is located close to Voltalia's under-construction Savanes des Pères project within the Toco storage complex, which couples a 2.6MW / 2.9MWh battery ...

Sm energy battery French Guiana

French renewable power producer Voltalia SA (EPA:VLTSA) has started the construction works on a 5-MW solar farm combined with a 10.6-MWh lithium-ion battery storage unit in French Guiana. Named Sable Blanc, the photovoltaic (PV) plant should be able to generate 7,430 MWh annually, enough to meet the electrical demands of 3,090 people in Western ...

At present, Voltalia has 29 MW of capacity in operation and under construction in French Guiana. This total includes biomass, hydropower, battery storage and solar photovoltaic (PV) projects. In October last year, the ...

French renewable energy company Voltalia has completed the expansion of a renewable energy plant in French Guiana, adding a battery energy storage system (BESS) of 10.6MWh. The Paris-listed company announced the commissioning of the Sable Blanc solar-plus-storage project yesterday (10 May).

French RE developer Voltalia has recently announced the commissioning of its Sable Blanc power plant combining solar photovoltaic production and battery energy storage in French Guiana. Developed entirely by the company, the hybrid project is claimed to benefit from a guaranteed sales price for 20 years.

The plant will be integrated with a hydrogen storage facility with capacity of up to 88 MWh in gaseous form, a 38 MWh battery energy storage system ("BESS") and a fuel cell with capacity of 3 MW. This innovative power plant will produce baseload, dispatchable and non-polluting electricity for the equivalent of 10 000 homes in western French ...

Voltalia has secured the Parc Sable Blanc scheme, which calls for the construction of a 5-MW solar plant with an integrated lithium-ion battery facility of 5 MW/9.3 MWh. The capacity will be installed in the commune of Mana, French Guiana, within the Toco energy storage complex.
