How much does a smartflower solar panel cost?

The SmartFlower cost is currently \$16,900 for a single unit, but the Smartflower costs \$22,000 for a complete system with batteries included. Read on for a price comparison of the Smartflower vs rooftop solar panels and be sure to visit our other post to dig even deeper into current solar panel cost.

What is smartflower solar?

SmartFlower Solar produces unique, ground-mounted solar panel systems that include a sun tracker and a number of other high-tech features. This 'smart' solar panel system is an all-in-one, self-sustaining system that differs greatly from the traditional monocrystalline or polycrystalline rooftop panels.

Do smartflower solar panels increase energy production?

Beyond increased energy production, the Smartflower manufacturer also touts that the panels operate at a lower temperature than typical residential installations, as wind can blow freely behind the panels, which increases the energy output of the installation (since panels are less efficient at high temperatures).

How is smartflower different from other solar panels?

A quick glance at Smartflower makes it clear how different this solar sculpture is from the solar panel systems we're used to seeing on rooftops or ground-mounted arrays. Aside from its looks, its dual-axis tracking capability allows Smartflower to generate up to 40% more energy than typical fixed solar panels, Gordon said.

How much does a smartflower EV cost?

SmartFlower also has the SmartFlower EV designed to directly charge an electric vehicle with solar power. After taking into account the 30% Residential Clean Energy Credit created by the Inflation Reduction Act and other state incentives, the cost comes closer to the \$17,000 to \$20,000 range.

How much does a smartflower cost?

The base Smartflower itself is \$39,950 plus installation and shipping charges, and the Smartflower Plus is \$65,500 plus shipping and installation. Installation costs vary by difficulty and complexity of each setup, ranging from roughly \$3,000 to \$7,000, according to Gordon.

While it is an attractive looking alternative to rooftop solar panels, how much does a Smartflower cost? The Smartflower is billed as a self-contained residential solar installation produced by the Austrian manufacturing ...

While it is an attractive looking alternative to rooftop solar panels, how much does a Smartflower cost? The Smartflower is billed as a self-contained residential solar installation produced by the Austrian manufacturing company of the same name.
