

What is New Caledonia's largest solar power plant?

The project involves building and operating a solar power plant with a capacity of 11.2 MWc in the South Province, in Boulouparis. The power plant, which is the largest existing solar facility in New Caledonia, comprises 43,000 panels covering 20 hectares. It was commissioned at the end of April 2017.

Who owns New Caledonia's energy?

The energy produced will be sold via a long-term power purchase agreement to Enercal, a semi-public company majority owned by New Caledonia. A similar (but smaller) project has also been financed at the same time in Temala in the North Province. It is the first photovoltaic power plant on customary land.

Why is AfD cofinancing the largest solar power plant in New Caledonia?

AfD is cofinancing the largest solar power plant in New Caledonia to allow cleaner energy to be generated. 43,000 photovoltaic panels will be installed, with a capacity to produce electricity for the equivalent of 5,400 households.

AfD is cofinancing the largest solar power plant in New Caledonia to allow cleaner energy to be generated. 43,000 photovoltaic panels will be installed, with a capacity to produce electricity for the equivalent of 5,400 households.

Noumea, New Caledonia, located at latitude -22.2734912 and longitude 166.4480887, is a suitable location for solar power generation due to its consistent sunlight exposure throughout the year and distinct wet and dry seasons.

Since 2007, AMBI Energy SAS has designed, built and maintained photovoltaic solutions in New Caledonia and the Pacific. Our proven experience and know-how allow us to propose you efficient and reliable technologies, designed to last over time.

We are at your side to create, build and maintain solar solutions in New Caledonia and the Pacific. Our proven experience and know-how allow us to offer you high-performance and reliable technologies, designed to last over time.

Solar Nc est constituée de professionnels d'installation, de conception, de maintenance et au montage de solutions photovoltaïques pour l'ensemble des clients Calédoniens. Recherche, développement, vente autoconsommation au sein du cluster des énergies renouvelables Synergie et vice-président de la FPPV, nous oeuvrons au bon fonctionnement de la filière solaire ...
