

Solar park energy solution Brunei

How will solar power benefit Brunei?

The solar power generated is equivalent to the electricity consumption of approximately 600 households per year and will offset some of the power used by the BSP Head Office. On a national level, the power generated will contribute towards Brunei's target of producing 100MWp renewable energy by 2025.

What are the major solar installations in Brunei?

Major active solar installations in Brunei include the country's first, Tenaga Suria Brunei, launched in 2010 with a capacity of 1.2 MWp, and Brunei Shell Petroleum's 3.3 MWp solar plant, launched in 2021 to supply power to its headquarters. Both plants have plans for further expansion.

Where is BSP's solar park located in Brunei?

Located at G11 along Seria's Jalan Tengah, BSP's solar park is the second solar plant in Brunei after Tenaga Suria Brunei began operations in 2010. Almost 7,000 solar panels were installed on four hectares of land, with the plant producing electricity from March 30.

Does Brunei have a sustainable future?

Brunei is targeting 30% renewable energy in total power generation mix by 2035, with 200 MWp of solar energy by 2025. The launch event also saw the release of Hengyi's 2023 ESG Report, which highlights their progress in environmental sustainability, social responsibility, and governance.

Why is BSP launching a solar PV plant?

The inauguration of the BSP Flagship Solar PV plant signifies BSP's strong commitment to pursue energy diversification and decarbonisation, and in support of the country's target of increasing the total share of renewable energy to at least 30% of total power generation capacity by 2035.

How will solar energy benefit Hengyi industries' petrochemical refinery?

"The solar energy generated through Project SINAR will not only support the energy needs of Hengyi Industries' petrochemical refinery, but will also contribute to Brunei's national power grid when required, enhancing energy sustainability across the nation," said Qiu Jianlin.

The solar power generated is equivalent to the electricity consumption of approximately 600 households per year and will offset some of the power used by the BSP Head Office. On a national level, the power ...

Kampong Belimbing Subok Solar PV Park is a 30MW solar PV power project. It is planned in Kota Batu, Brunei. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the announced stage.

This historic initiative, boasting a capacity of 382.53 kilowatts peak (kWp), marks a significant step forward
