

Infinity energy solar is a company that can provide you with consulting, design and supply of top class solar equipment. We prepare a technical and financial basis for Bulgarian and international financial organizations to financially support your project.

On March 13, 2023, peak photovoltaics power was 30% of Bulgaria electricity generation. However, long-term share of solar power is much lower. Director of Bulgarian transmission network estimated photovoltaics growth as 30% in 2022, also he expects 700 MW new solar capacity in 2023, which could represent 30-40% YoY growth.

Listed below are the five largest active solar PV power plants by capacity in Bulgaria, according to GlobalData's power plants database. GlobalData uses proprietary data and analytics to provide a complete picture of the global solar PV power segment.

6 ???&#0183; In Vassilev's view, the concerns that photovoltaics would take up too much fertile land in Bulgaria, harming nature and agriculture, are unjustified. He said only 0.05% is under solar power plants, and on locations with grades 7 to 10, while that more than 80,000 hectares lie fallow. Safeguards for protected European ground squirrel

It is now economic for commercial and industrial customers in Bulgaria to invest in solar PV projects, without subsidies and without government incentives. As a result, the market for distributed solar PV in Bulgaria is starting to grow. Remarkably, the growth of the market

The largest distributor of solar equipment in Bulgaria and the Balkans, as well as a partner of global brands such as Huawei, Aerocompact, Astronergy, Clenergy, Dyness, AlphaESS, and ...

We specialize in the construction of photovoltaic systems for business, home and solar power plants. We provide reliable and cost-effective solutions for the use of renewable energy for the needs of our customers in Bulgaria and the European Union. We are your trusted partner for turnkey solar systems projects at all sizes.
