

Solar support foreign trade

Will European solar panels be able to trade with China?

European solar panel manufacturers have previously asked the EU to consider trade safeguards on Chinese imports, but Brussels and governments including Germany have warned broad curbs on Chinese supply could stunt Europe's fast expansion of clean energy.

Will trade affect Europe's solar power targets?

Europe produces fewer than 3 per cent of the solar panels needed to hit the bloc's 2030 solar power targets. Developers fear implementing trade measures could hit supply and hold up projects.

Does Solarpower Europe support trade measures?

However, SolarPower Europe, an industry body that counts Chinese telecoms company Huawei among its members, has publicly campaigned against trade measures. "We have repeatedly warned that EU and national policymakers must rapidly act with real solutions," said SolarPower Europe chief executive Walburga Hemetsberger.

Are Chinese solar companies coping with a trade dispute?

Chinese solar companies are capable of mitigating risks while maintaining their competitive edge in the international market amid an ongoing trade dispute, as they have been stepping up efforts to diversify their global operations in recent years, experts and business insiders said.

Will European countries help Europe's ailing solar panel manufacturers?

REUTERS/Stephane Mahe/File Photo Purchase Licensing Rights BRUSSELS, April 15 (Reuters) - Most European Union countries are set to commit more support to help Europe's ailing solar panel manufacturers on Monday, but steer clear of restrictions on cheap panel imports from China, a draft document showed.

Does Europe have a trade policy for solar panels?

Europe has a trade policy for solar panels that is designed to level the playing field between Europe and countries like China. This column assesses the EU's stance. Antidumping policy is supposed to promote a fair competitive environment between domestic import-competing and foreign exporting firms.
