

# Solar support insulation bucket

What is a renusol CS+ bucket?

The Renusol ConSole CS+buckets are a ballasted solution for installing PV modules on flat roofs or the ground. Please note, Max module width 1015 mm (generally solar panels under 400w) The ConSole+ provides an angle of 15 degrees and can be fitted to flat roofs with a pitch of up to 5 degrees.

Which solar panels fit on the console+?

The ConSole+ provides an angle of 15 degrees and can be fitted to flat roofs with a pitch of up to 5 degrees. Many commercially available framed PV modules fit on the ConSole. Please check the Console CS+ manual for the panel dimensions and panel mounting hole centres and compare this to the solar panel data sheet.

How do the solar panels attach to the mounts?

The Solar Panels attach to the mounts using the mounting holes on the back of the module. Please check the measurements below against your panel specification: - Max module length: 1550mm - 2150 mm

Who is renusol solar racking?

Since 1997 Renusol has been developing and producing innovative and cost-efficient solar racking solutions for the photovoltaic industry. Their products are flexible across range and consists of a solution to fit every requirement and roof type. A SEGEN EXCLUSIVE Get a 20 year extended warranty on Renusol products when using the Design Tool.

What materials can be used for the renusol solar array?

The ConSole is weighed down with ballast. Any material can be used: gravel, paving slabs, bricks, rock etc. The amount of ballast depends on the height and location of the building. Before installing please read the Renusol Notes and use the Renusol PV Configurator to design your array and specify the ballast.

How much ballast does a solar panel use?

The amount of ballast depends on the height and location of the building. Mounting components are included for the Solar Panels. The Solar Panels attach to the mounts using the mounting holes on the back of the module. Please check the measurements below against your panel specification:

Dedicated to the highest standards, our team works earnestly to help you -- and your equipment -- reach new standards of performance. From a one-off repair to integrated performance and reliability solutions you can count on unbeatable ...

Check if you can get free or cheaper insulation to reduce your home's energy bills - including cavity wall insulation and loft insulation. Apply for support from the Great British Insulation ...
