Who are the Philippines off-grid solar power system specialists?

Philippines Off-Grid Solar Power System Specialists. Planning, Engineering and Installation services, nationwide! Affordable, Accessible, Clean, Solar Power for your Home or Business. PhilSolar Equipment and Trading Corporation imports and distributes high quality off-grid solar power systems throughout the Philippines.

Why is solar nrg group launching a solar project in the Philippines?

Due to high electricity costs in the Philippines, one of the highest in Southeast Asia, SolarNRG Group found an opportunity to bring its expertise in photovoltaic systems to provide solar panels and promote the growth of solar power in the Philippines.

Why should you choose solar nrg Philippines?

SolarNRG Philippines has proficient personnel who can design the perfect solar panel system, procure the necessary equipment, and build a turnkey system that will generate savings from day one. Additionally, we provide operation and maintenance as part of a yearly maintenance contract.

What is solar nrg Philippines?

The drive to save the environment and to offset the rising costs of electricity inspired SolarNRG to promote awareness of renewable energy and bring solar technology to the Filipino people. In partnership with Filipino company Jater Development Corporation, the SolarNRG Group established SolarNRG Philippines in 2014.

Who is SolarEdge in northern Luzon?

We are also the only certified SolarEdge installer in Northern Luzon. Our full range of services ensures you get the very best experience from designing your solar system, calculating ROI, installation, and after-sales support. Check out our competitive pricing on some of the most popular residential solar systems.

Are solar panels worth it in the Philippines?

At the risk of sounding biased, solar systems are worth it in the Philippines. The country has one of Southeast Asia's highest average electricity prices, so solar panels' long-term savings are worth it. What are the factors to consider when buying and installing solar panels?
