US energy solutions contractor DEPCOM Power on Monday described its role in the creation of the recently inaugurated Ciro One hybrid generation facility in Salinas, Puerto Rico, and provided insight into several features of the 90-MWac solar photovoltaic plant and accompanying 51.5-MW battery energy storage system (BESS).

We are an association representing Puerto Rico's solar and energy storage industries bringing reliable, clean, affordable and local energy to the entire island. We advocate solar and storage technologies as a central solution to the energy needs of Puerto Rico, and promote public policy that will benefit the growth of these industries.
