

# Solpex energy Tokelau

Who is solpex energy?

Solpex Energy is a global project developer who creates wealth and added value, carrying out projects in the renewables sector. We focus on solar and wind power as a clean and inexhaustible energy source.

What stages of a project can solpex energy work at?

We have the capability to work at every phase of a project: early stages of development, feasibility, design, tenders, construction and asset management. Solpex Energy is a global project developer who creates wealth and added value, carrying out projects in the renewables sector.

Can a solar array power Tokelau?

Solar Array's seen on the three tiny islands of Tokelau to completely produce solar power energy. The renewable energy system comprising of solar panels, storage batteries and generators running on biofuel derived from coconut will generate enough electricity to meet 150% of the islands' power demand.

How much electricity does a solar system provide in Tokelau?

Each system alone is among the largest off-grid solar power systems in the world, and together they are capable of providing 150% of current electricity demand in Tokelau, a much higher amount than the 90% that was originally planned for.

Why did Tokelau switch to solar?

Yet despite the challenges involved in installing comprehensive solar systems in such a remote location, switching to solar was absolutely crucial for the tiny collection of islands. "Tokelau's atolls are low-lying and especially susceptible to the adverse effects of climate change," Mayhew stressed.

Why is electricity so expensive in Tokelau?

Before the PowerSmart systems were installed on the nation's three atolls, Tokelau was highly dependent on imported fossil fuels to meet its energy needs and therefore vulnerable to international price fluctuations and increasing fuel costs, making electricity extremely expensive for both households and businesses.

Our solar-powered lights are equipped with solar panels that capture sunlight during the day and convert it into energy at night. Plus, these solar outdoor lights are safe for kids, pets, and ...

Tokelau, an island nation in the South Pacific, is now completely able to support itself with solar energy. Elly Earls met Joseph Mayhew of the New Zealand Aid Programme to find out how this tiny collection of atolls has become almost ...
