

Sun storagetek 6100 Madagascar

How do I install Sun StorageTek common array manager?

1. Install the Common Array Manager release after the standard installation procedure. For more information, see the Sun StorageTek Common Array Manager Software Installation Guide.
2. Register the array, if needed.
3. From the Storage Summary page or Array Administration page, click the Install Firmware Baseline button.

How do I register an array in Sun StorageTek?

Click an array name to see the array details. TABLE 2-5 describes the buttons and fields on the Storage System Summary page. Click to launch the Register Array wizard to designate a new storage system to be managed by the Sun StorageTek Common Array Manager software. Click to remove the selected array from the registry.

How do I enable storage domains in Sun StorageTek common array manager?

Click Sun StorageTek Common Array Manager. The navigation pane and the Storage System Summary page are displayed. From the navigation pane, expand the array for which you want to enable additional storage domains. The navigation tree is expanded for that array. Expand Administration and choose Licensing.

What Array Manager software does Sun StorageTek offer?

Software for the J4000, F5100, and B6000 array families is delivered on DVD and consists of the Sun StorageTek Common Array Manager software suite which provides management, monitoring, and service capabilities. The software has both a browser interface and a command-line interface (CLI).

What is the Sun StorageTek access volume?

The access volume, which is mapped to LUN 31, is listed only on the Mapping Summary page and is created on the Sun StorageTek 6140, Sun StorageTek 6540, and Sun StorageTek 2500 series arrays for communication between in-band management software and the storage array.

How do I manage licensing for Sun StorageTek common array manager?

To manage licensing for Sun StorageTek Common Array Manager, click on Sun StorageTek Common Array Manager in the navigation pane. The navigation tree for the selected array is expanded, and you should then expand Administration and choose Licensing. The Licensable Feature Summary page is displayed.
