Gracias a la inteligencia artificial SunBox gestionará tu energía de la forma más eficiente, para consumir energía solar en periodos donde el precio de la electricidad es más alto. Consumo ...

Sunbox however was designed as an entry system to solar integration and specifically for short term (load shedding) use. This means that the default panel(s) is(are) not capable of sustaining the full load capacity of the inverter on its own. Additional panels and controllers can however easily be added to SUNBOX to enhance the recharge capability.
