Turn battery data into action. Ensure exceptional performance, safety, and value with award-winning predictive battery analytics software built by world-class battery experts.

Dr Kai-Philipp Kairies of ACCURE provides insights into typical technical commissioning challenges and how advanced battery analytics can support owners and operators. This is an extract of a feature which appeared in Vol.35 of PV Tech Power, Solar Media's quarterly technical journal for the downstream solar industry.

LONDON (April 23, 2024) -- Gore Street Capital, the investment manager of the internationally diversified Gore Street Energy Storage Fund, announced today an agreement with ACCURE Battery Intelligence, a leading provider of battery analytics technology, and international insurance firm HDI Global SE, to use data analytics technology as part of an innovative risk-managed ...

ACCURE Battery Intelligence Secures EUR7.2 Million Investment to Expand Battery Safety and Performance Software Offerings for Energy Storage, Electric Vehicles and More ACCURE's software uses data, physics-based models and AI to monitor and improve battery performance, safety and longevity.

Die Story. Das Aachener Batteriesoftware-Startup ACCURE Battery Intelligence wurde 2020 von Dr. Kai-Philipp Kairies, Dr. Georg Angenendt und Dr. Johannes Palmer gegründet und hat einen rasanten Start hingelegt: Direkt im Gründungsjahr hat ACCURE eine Seed-Finanzierungsrunde in Höhe von 2,3 Millionen Euro abgeschlossen. Ihr Erfolgsrezept: ...

About ACCURE Battery Intelligence. ACCURE helps companies reduce risk, improve performance, and maximize the business value of battery energy storage. Our predictive analytics solution simplifies the complexity of battery data to make batteries safer, more reliable, and more sustainable. By combining cutting-edge artificial intelligence with ...

?AACHEN, Germany and BOSTON (January 11, 2024) -- ACCURE Battery Intelligence, the leading provider of predictive battery analytics software, has been recognized on Cleantech Group's 2024 Global Cleantech 100, an annual ...

Cloud-based battery analytics provider ACCURE is monitoring a fleet of large-scale battery storage systems in Germany for Iqony, a subsidiary of utility Steag. ACCURE, a spin-out from the research labs at German ...

My name is Kai, I'm the CEO andco-founder of ACCURE Battery Intelligence. I'm an engineer by education,

Suriname accurate battery

spent the last 14 years in the battery world and had the privilege to lead the largest research group on stationary batteries in Europe for a few years before spinning out to join and found ACCURE. What we do at ACCURE is basically ...

????,????UI??,????????????????????????????

Although much of that responsibility lies with manufacturers, Dr Kai-Philipp Kairies of ACCURE Battery Intelligence discusses how a combination of data gathered from the field and analytics embedded in software can make ...

ACCURE gathers a combination of lab-level and field operation data to forecast and determine the health of batteries, yielding important insights on everything from battery lifetimes to optimal operating schedules. The ...

Join ACCURE at upcoming battery industry events and gain valuable insights on transforming battery data into business intelligence. As a leading battery intelligence company, ACCURE attends top industry conferences and webinars to advance safety, reliability, and sustainability while increasing profitability. Don't miss your chance to connect with us and ...

Extend battery life whether 100% electric or hybrid. Advanced analytics about capacity and charge cycles ensure you're informed daily about operating range and throughput. Then you can develop strategies that reduce battery stress ...

Written by Jan Figgner, Senior Battery Expert, ACCURE Battery Intelligence ? This blog presents our publication in Nature Energy, one of the world's most renowned energy-focused scientific journals. This study, conducted in collaboration with RWTH Aachen University, presents the findings of an eight-year analysis comprising about 14 billion data points, which you'll find ...
