

Taiyo Power & Storage, a joint venture between Kajima and Low Carbon Alliance, has sold a ready-to-build solar project totalling 37.3 MW in the UK to Infinis Solar Developments Ltd.

The joint venture, Taiyo Power & Storage will initially develop a portfolio of ground mounted solar, solar-and-battery hybrid and stand-alone battery storage plants with a build-out value of £150 million. These projects are already in early development stage in England, Scotland and Wales.

Taiyo Power & Storage is a new, renewable energy joint venture between Low Carbon Alliance and Kajima Europe. Taiyo will utilise the strengths of its partners to deliver quality-driven renewable energy projects that have a positive impact for both people and planet.

In the UK, Kajima has established Taiyo Power & Storage, a joint venture with Low Carbon Alliance. Taiyo is currently developing a portfolio of +200MW of large-scale ground-mounted solar PV and +200MW of battery energy storage facilities through to Ready-to-Build.

Whether it's buying power from our solar farms through a corporate power purchase agreement, or wanting to generate power from your own premises, we are a diligent and professional partner. Contact us to find out more
