

## What is Solarman smart cloud platform?

SOLARMAN has developed a complete intelligent PV solution including hardware, software and data analysis to offer smart energy for global customers. SOLARMAN smart cloud platform has been a global leading PV monitoring and management platform, focuses on managing distributed PV power plants worldwide.

## What products does Solarman offer?

offers a complete solar monitoring & management hardware products include various data logger, smart meter, weather station, optimizer, rapid shutdown and so on. SOLARMAN brings comfortable and eco-friendly life to global users. SOLARMAN has established a close cooperation relation with ZCS in Italy, CORAB in Poland.

## What is Solarman platform?

SOLARMAN platform offers comprehensive PV performance monitoring, management and data integrity through the function of intelligent AI diagnosis, immediate fault detection, customized alert, plant performance report and standardized O&M process.

## What is Solarman solution?

SOLARMAN solution covers whole life-cycle of devices, capable of smart product management and remote problem-solving. SOLARMAN empowers PV professionals such as installers, O&M service providers and distributors, to streamline business process, to realize highly efficient O&M by cutting-edge technologies.

### What is Solarman energy management device?

SOLARMAN energy management device is specially designed for distributed residential/industrial&commercial plants. With its brand new design,it features in high reliability,high accuracy and high efficiency. SOLARMAN stick logger supports GPRS,WiFi,4G,Ethernet and other communication method.

## What is Solarman business?

SOLARMAN Business supports PV system with different types (grid-tie, off-grid, etc.), acquiring and supervising multiple device types. (e.g. inverter, weather station, combiner box, module, meter, micro inverter, battery and etc.) Intelligent AI Diagnosis, can Evaluate health status for tens of thousands of power plants within 10 mins.
