

TEXEL is developing cost effective, sustainable and circular hybrid energy storage / batteries and energy production solutions. In combination with renewable energy the TEXEL technology is not only cost competitive to fossil fuels, but as well competitive in terms of energy distribution, 24 hours a day, 7 days a week, 365 days per year.

TEXEL Energy Storage AB ("TEXEL") announced a rebranding to TEXEL Energy, a name change that better reflects the multifaceted business opportunities that have emerged through years of...

The acquisition is in line with TEXEL's ambition to remain at the forefront of thermal energy conversion technology, which encompasses stored heat-to-electricity systems and waste thermal...

Founded in 2010 and rebranded as TEXEL Energy Storage in 2018, TEXEL is a Swedish Greentech company dedicated to advancing green energy technologies. In collaboration with the U.S. Department of Energy and other international partners, TEXEL develops cost-effective, recyclable energy systems designed to compete with fossil fuels.

The core technology, developed by TEXEL over the years, enables the conversion of thermal energy into green electricity and heat in an economically and environmentally sustainable way. This technology will be applied across the different business divisions to fuel TEXEL's growth and innovation in the green energy sector. Statement from ...

This rebranding marks a new phase for the company with focus on commercialisation, where energy storage remains a prioritized business area, while new business divisions such as TEXEL Flare Gases, TEXEL Defence, ...

This rebranding marks a new phase for the company with focus on commercialisation, where energy storage remains a prioritized business area, while new business divisions such as TEXEL Flare Gases, TEXEL Defence, and TEXEL Biofuels are introduced.

It enhances TEXEL's capabilities in converting waste heat and stored thermal energy into electricity, reinforcing our position as the global leader in this space. The technologies acquired will be pivotal in our push to develop next-generation green energy solutions, both for energy storage and waste-to-energy applications Says Lars Jacobsson ...

TEXEL Energy Storage AB ("TEXEL") announced a rebranding to TEXEL Energy, a name change that better reflects the multifaceted business opportunities that have emerged through years of research and development (R&D), acquisitions, and partnerships.

It enhances TEXEL's capabilities in converting waste heat and stored thermal energy into electricity, reinforcing our position as the global leader in this space. The technologies acquired will be pivotal in our push to develop ...

TEXEL Energy is an innovative energy technology company with Swedish origins, dedicated to accelerating the green transition by developing and commercializing true-green, modular, and sustainable solutions to meet global energy challenges. TEXEL's main focus is Energy Storage, but over the years, the company and its technology have evolved to ...
