

1.4 The development of solar energy in The Gambia By virtue of its geographical location, The Gambia enjoys very good solar insolation throughout the year with slight seasonal variations. The average daily solar radiation ranges from 4.46.7 - kWh/m² making solar energy the most prominent renewable energy resource of the country.

The average annual solar insolation for The Gambia is 4.5-5.3 kWh/m²-day, which represents a high generating potential for the country, making it interesting for PV Power Plants, Solar Home Systems (SHS), solar heater for the domestic and hotel industry and Hybrid Diesel-PV Systems. ... Get the latest news on products and service by signing up ...

This marks the first time in the Gambia's history where a utility scale solar plant of 23 Megawatts Solar PV capacity and 8-Megawatt hours battery storage is being commissioned. This solar plant allows NAWEC to finally shift away from expensive heavy fuel oil-based generation which is costly and harmful to the environment.

The Gambia entered a new era of energy development in April 2023 with the inauguration of its first large-scale solar energy facility in Jambur. Built by Chinese manufacturer Tebian Electric Apparatus, the 23 MW solar plant - equipped with an 8 MW electricity storage system - serves to reduce the country's reliance on imported fossil fuels.

We can take care of all the planning and construction of your complete solar pumping system including borehole drilling and making tapstands. From pumping water for recreation, like pools for example, to surface pumping from the river Gambia for agricultural purposes, like one of our previous clients pumping water to a rice field, we can make your dream a reality!

We offer a number of solar-powered sustainability services, with a wide array of uses. Whatever your sustainability needs, you can trust the largest and one of the most reputable solar-powered companies in The Gambia. Our modular projects are based on 3 main technologies: Solar Power Systems; Solar Heating Systems; Solar Pumping Systems

Solar street lights, Solar Water Heating systems, Design, maintenance and repairs of solar systems, solar modules, inverters, charge controllers, solar pumps and deep-cycle solar batteries. Why choose GAM-Solar Energy? The only ...

A directory of contact address details of companies that import & sell PV solar energy units & related equipment as well as solar installers & consultants in Gambia. This page has telephone numbers, some emails, faxes, websites, main locations in the Banjul area such as for Gamsolar Energy & Engineering
