The state-of-the-art generators, originally designed by Toyo Denki Seizo K.K. Japan are manufacturing at our ultramodern plant in Bangalore where equipped with advanced machines and tools. Since 2001, we focus on manufacturing custom-designed generators for our customers by providing high quality, on-time delivery, and competitive prices.

Transportation Systems. Railway transportation provides people with the comfortable and safe mobility they need for modern life. Making the most of the technologies it has been developing for almost a century, Toyo Denki manufactures a wide range of railway electrical equipment, including train propulsion systems (drive systems), auxiliary power ...

Our power generation systems for everyday and emergency use supply safe and stable electric power. We propose the best possible solutions to our customers, always taking the environment and energy conservation into consideration.

Electric power is one of the most important aspects of social infrastructure and crucial to daily life. Our power generation systems for everyday and emergency use supply safe and stable electric power. We propose the best possible ...
