Ukraine has signed an agreement to buy equipment from US reactor company Westinghouse for construction of the planned Khmelnytskyi-5 AP1000 nuclear power plant in northern Ukraine. The agreement was signed ...

Today we signed an agreement that will allow Ukraine not only to start an efficient post-war recovery of the energy infrastructure, but also to become one of the first countries in the world to attract promising technologies ...

Rolls-Royce has launched a lithium-ion-based energy storage system for ships with an aim to offer a clean, safe and cost-efficient system to ship owners.. The liquid-cooled battery system, SAVe Energy, features a modular design to enable scaling in accordance with energy and power requirements of various types of ships.

"Under the memorandum, Rolls-Royce SMR is committed to supporting Ukraine's recovery by

Ukraine rolls royce energy storage

deploying a power plant with a pre-fabricated small modular reactor (SMR) that will be capable of generating enough carbon-free electricity to supply a million homes for more than 60 years," Ukrainian media quoted Energoatom as saying on social media on ...

Aerospace-certified ESS solutions from Rolls-Royce will power electric and hybrid-electric propulsion systems for eVTOLs Image: Rolls-Royce In order to deliver this ground-breaking technology, the compnay is planning an ...

Rolls-Royce SMR commits to supporting Ukraine"s recovery by deploying an SMR plant "capable of generating enough carbon-free electricity to power one million homes for over 60 years",. The MoU was signed on 20 March by Energoatom President Petro Kotin and Sophie Macfarlane-Smith, head of customer engagement at Rolls-Royce SMR.

Rolls-Royce SMR has now signed an agreement with Energoatom, Ukraine"s national nuclear energy generating company, to work together in looking at future possibilities of deploying the reactors in the war-torn country.

Rolls-Royce Solutions parent company Rolls-Royce Holdings is largely known for supplying aeroplane engines. Image: Rolls-Royce Solutions. AST, the transmission system operator (TSO) of Latvia, has selected Rolls ...

Rolls-Royce SMR commits to supporting Ukraine"s recovery by deploying an SMR plant "capable of generating enough carbon-free electricity to power one million homes for over 60 years",. The MoU was signed on 20 ...

"As a strategic investor, the aim is to set up a partnership with Qinous for the development of innovative energy storage solutions and together offer cleaner solutions designed to meet tomorrow"s needs," explained Marcus A. Wassenberg, CFO and Labor Director at Rolls-Royce Power Systems.
