In Massachusetts, homeowners who install solar systems are fully exempt from property taxes for 20 years, which is a significant benefit since solar systems can increase a property's value. The state also offers a 6.25% sales tax exemption for home solar systems, making it more affordable to transition to renewable energy.

SE Energy Investment Co., Ltd., a UK subsidiary of Shanghai Electric Group, and Hive Energy Ltd have formed a joint venture to build and operate 50 Megawatts of photovoltaic solar power generation in the Mariel Development Zone, Cuba.

CUBA STANDARDS -- During his three-day visit to Cuba, Prince Charles presided over a ribbon-cutting ceremony for a British company's solar power project at the Mariel Special Development Zone. Completion of the 50 mw solar farm, estimated to cost \$60 million, is expected for December.

Solar energy potential. According to many studies, Cuba receives an average solar irradiance of over 5 kW per m<sup>2</sup> per day, which is considered high and presents great potential on this archipelago with over 110,800 km<sup>2</sup> and an annual average of 330 sunny days.

En Cuba, las personas naturales pueden adquirir sistemas fotovoltaicos y equipos que funcionen con energías renovables (paneles solares, calentadores solares, bombas fotovoltaicas, pequeños aerogeneradores, biodigestores de geomembranas, motobombas a biogás, alumbrado solar y sistemas de aire acondicionado solar, entre otros) mediante ...

Solar developer Hive Energy and SE Energy Investment Co, a UK subsidiary of Chinese equipment manufacturing conglomerate Shanghai Electric Group, have formed a joint venture to build and...

Unlike other countries where people make a living from selling clean energy, in Cuba those who install solar panels essentially seek energy self-sufficiency, that is, to have electric power even during blackouts.

The Republic of Cuba has opened the bidding process for a 60 MW Solar PV project, seeking solar power developers to participate in the selection as part of the International Solar Alliance Program. Explore the details of this initiative aimed at achieving Cuba's ambitious renewable energy targets, reducing reliance on imported fossil fuels, and ...

Through the ADI program under SuSI, New Jersey's net-metered residential solar owners earn one certificate for every 1,000 kWh of electricity their solar system generates for 15 years. These certificates - called SREC-II's - are worth \$85 each for ...
