

What is the Guide to solar energy in Sudan?

"The Guide to Solar Energy in Sudan" is the first booklet of its kind in Sudan that targets consumer awareness at a "grass root" level, proudly developed by Clean Energy 4 Africa, and supported by several of the largest solar energy companies in the country.

Is solar energy making a comeback in Sudan?

Fortunately, the country is now witnessing a comeback to solar energy as it is an effective tool to drive development, employment, and stability - particularly in rural and agriculture-focused communities. "In Sudan, access to energy is a critical tool, and solar is an effective way to achieve this.

How can Sudan achieve energy self-sufficiency?

Encouraging solar and wind power in the country's energy portfolio could help Sudan achieve its goal of energy self-sufficiency. Egyptian policies such as nurturing and promoting renewable technologies and scientific research, feed-in tariffs, and tax exemptions could help Sudan achieve its objectives.

Can Sudan adopt solar power?

On the other hand, there is a promising potential in adopting solar power in the country. Germany, the leading country in solar energy, averages less than 140 hours of sunlight per month in its sunniest city Stuttgart. Sudan's location allows it to receive up to 11 hours of direct sunlight daily, equivalent to 436-639 W/m² of solar energy density.

Who owns Solarman?

Owner of Solarman, Engineer Hassan, said the activity of his company had started in 1996 and that they cover most spheres of solar energy, like the provision of current stabilizers, batteries and battery chargers and plates.

How much does electricity cost in Sudan?

As for Ethiopia, Sudan imports electricity at a price of 4.5 cents/kilowatt. In August 2021, the Minister of Energy and Petroleum declared that the Sudanese energy sector needed urgent maintenance and restructuring at a cost of \$3 billion, another indicator of the dire financial needs of the sector.
