How to clean solar panels?

Step 2: Choose the best approach: If your solar panels are on the roof, consider using a telescopic window cleaning pole to clean them from the ground instead of using a ladder. Step 3: Mix your cleaning solution: In a bucket of warm water, mix a small amount of mild detergent or use a specialised pre-mixed solution.

Should you clean or dirty solar panels?

Cleaning your solar panels keeps them working optimally. Though 6.3% might not seem like a lot, it's a loss that can add up over time. This makes a noticeable difference between clean vs dirty solar panels in the overall efficiency of your solar power system.

When should I clean my solar panels?

Optimal timing: Clean your solar panels in the early morning or late afternoon when they are cooler. This prevents water from evaporating too quickly, which can leave streaks or residue and affect efficiency. Cooler panels are also safer to clean. Check warranty: Review your solar panel manufacturer's warranty guidelines before cleaning.
