It has a lithium rechargeable battery with 2.3 volts and 18 mAh capacity with a shelf life of 10 years. This

Zambia rechargeable battery with solar panel

lithium battery is rechargeable with solar power, and it is a quality replacement battery that provides long-lasting power, performing in a wide range of temperatures from -20°C to 60°C.

Lead Acid Batteries. Lead acid batteries were once the go-to choice for solar storage (and still are for many other applications) simply because the technology has been around since before the American Civil War. However, this battery type falls short of lithium-ion and LFP in almost every way, and few (if any) residential solar batteries are made with this chemistry.

Tactacam Solar Panel Manual Tactacam's 12-volt External Solar Panel kit with an integrated rechargeable Lithium battery is designed to provide power to all brands of Trail Cameras - even if the host camera batteries are dead. 73% more battery life than the previous solar panel Integrated Mounting Bracket Fits all REVEA
