

Zonergy Corporation Solar Storage System Series Off-grid Energy Storage Inverter with Battery Granite 3000L-M1-Limestone 7.5H-P. Detailed profile including pictures and manufacturer PDF

The sodium-ion battery has more application potential in fields with less energy density requirements but is sensitive to safety and cost, such as the fields of distributed energy storage, low speed vehicles and backup power. [Energy storage] includes residential energy storage, industrial and commercial park

TÜV SÜD has recently issued a certificate in accordance with PPP 51096A*, PPP 51097A* and UL 1973 for the 70Ah sodium-ion battery cells of Zonergy Corporation (hereinafter referred to as "Zonergy"). It is the first TÜV SÜD certificate of its kind in the world.

The company has developed several categories of products including the product in the power generation side, control inverter, energy storage, new energy load and novel type battery & materials, helping promote the development of clean energy industries.

At the theme forum, professor Song Chunhua shared the company's sodium-ion battery progress, from the development of new sodium-ion battery products, product cycle life, testing, certification and other aspects.
